COMMON ALTITUDE

FOUNDING DISCOVERY UNDERWRITING

A proposed six-week feasibility stage.

ORIGINAL CONCEPT GRAPHIC

Artist income and public access

The proposal measures completed sales, paid creative work and visitor access.

Artist income

Completed sales and paid creative work.

Public discovery

Free core exhibitions and paid educators, with access information for visitors.

A credible destination

A Denver visit supported by confirmed work, appointments and transport information.

A $75,000 discovery target

The parties may agree to count discovery support once within later sponsorship.

$75,000

Total underwriting target

$70,000

Defined professional work

$5,000

Discovery reserve

Discovery deliverables

The paid scope tests the site, demand, art offer, costs and finance before an event decision.

Site + delivery

Owner/code/producer feasibility and scope alternatives.

Market + art

Qualified buyer research and realistic seller/artist proposition.

Finance + brand

Quote/cash plan, rights/contract issues and a coherent presentation system.

Six-week decision schedule

Contracts would define milestones, acceptance and payment.

DISCOVER

Access, phasing, professional roles and evidence.

TEST

Audience, creative propositions and commercial fit.

PRICE

Production, cash restrictions and cancellation exposure.

DECIDE

Proceed, resize, relocate or stop.

Event funding targets

The core scenario has no funding commitments.

$1.25m

Cash sponsorship target

$1,550,000

Core cost envelope

$600,000

Facility/backstop ceiling to investigate

Art-sales assumptions

Artwork proceeds pay sellers and stay separate from event finance.

$3m

Completed art-sales target

150

Assumed purchasing households

$20,000

Average completed order assumption

Team and artist pay

Budget defined work first. Agree any additional bonus separately.

Core delivery

$260,000 later core-team envelope.

Creative contribution

$200,000 artist/program-fee envelope.

Fair terms

Classification, rights, milestones, cancellation and accepted hours.

Owner fit and site limits

The fair could support the rental and office project if the owner confirms a usable footprint.

Useful activation

Public cultural identity and appropriate qualified interest.

Bounded footprint

Construction, tenants and approved use control the site.

Transparent economics

No undefined share of artwork seller proceeds.

Surplus and preopening cash

The model tests unverified income, costs, cash restrictions and reserve assumptions.

$1,815,000	Organizer revenue
$1,550,000	Cost envelope
$265,000	Before owner / tax / reserves
$530,000	Peak preopening bridge sensitivity

Conditions before expansion

The base model assumes no public grants or celebrity participation.

Evidence gates

Stop/rescope if site, demand or finance fails.

Protected funds

Seller, tax, refund and restricted balances stay protected.

Independent roles

Producer, finance and qualified specialists challenge assumptions.

Project decision dates

Project day one is November 1, 2026. Event dates remain proposals.

NOV

Funded discovery decision.

DEC–JAN

Site and delivery organization.

MAR

Launch decision on evidence and funding.

AUG

Open only if required conditions pass.

Discovery contract discussion

A $75,000 milestone-based agreement would define deliverables, payment and stopping terms.

- No implied investment return or tax-deductible donation.
- No forced launch if feasibility fails.
- Later sponsorship credit and recognition only as agreed.

Sources and unresolved terms

Research supports context. Demand, costs and commercial terms still need evidence.

- Reproducible finance, monthly cash, gates and action plan accompany this deck.
- Appropriate professional advice determines actual entity, tax and funding treatment.
- Creating this deck made no contact or commitment.
