COMMON ALTITUDE

OFFICE OF THE IMPOSSIBLE
Working creative direction / Denver 2027

ORIGINAL CONCEPT GRAPHIC

The ordinary becomes extraordinary.

A remarkable place to discover and acquire art, open to the city.

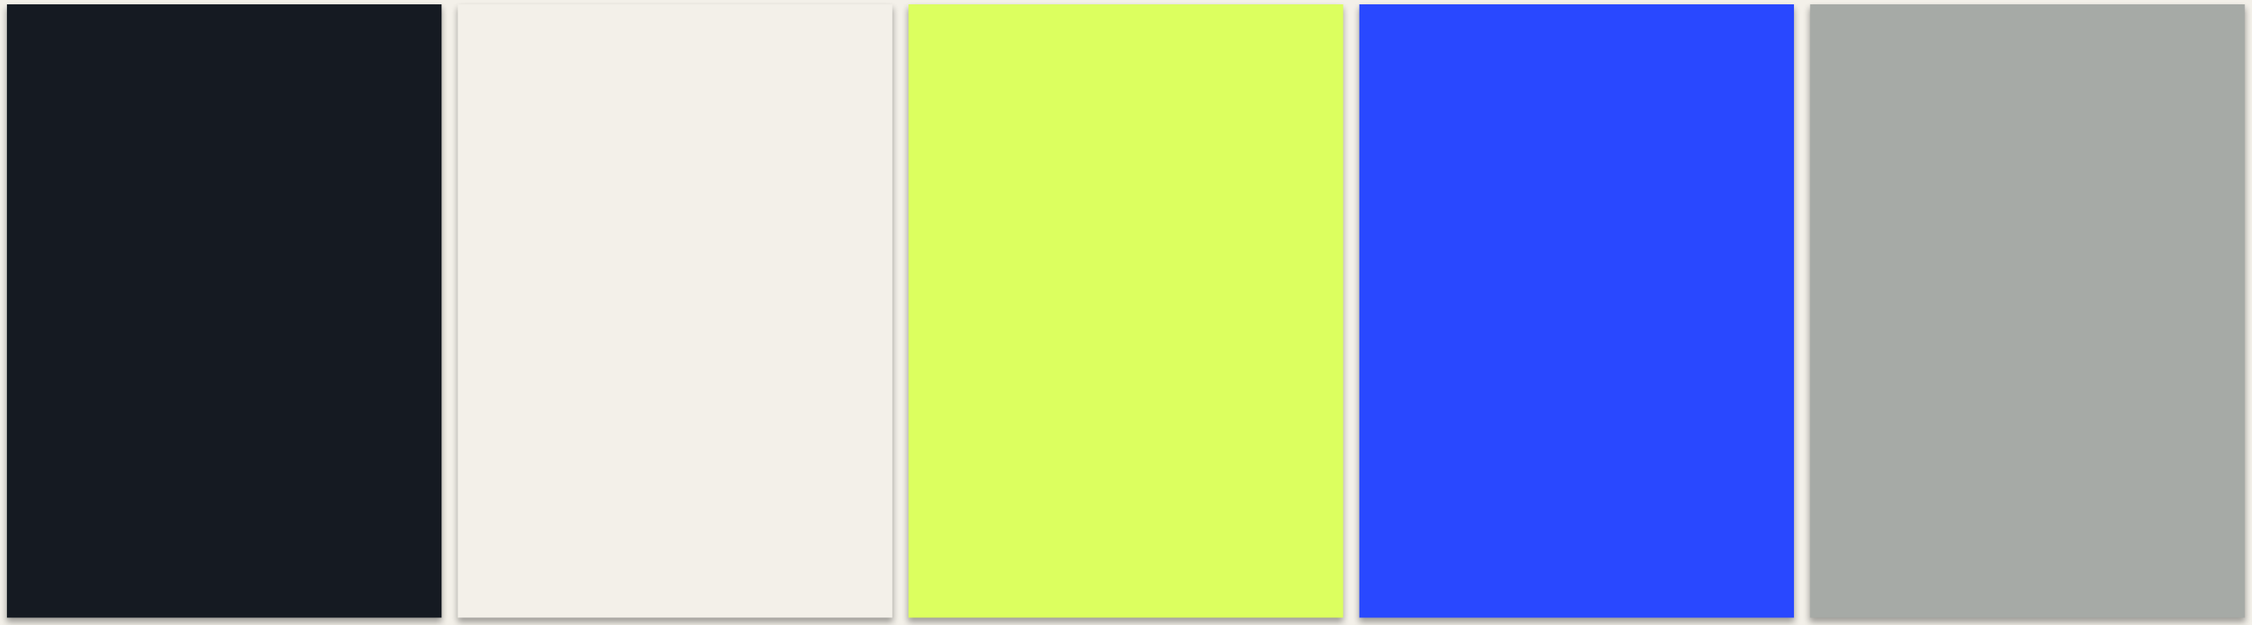

Artist authorship, a public welcome and a serious art market.

A familiar room can become an unexpected encounter.

The visitor experience should be as good as the headline idea.

A precise interruption.

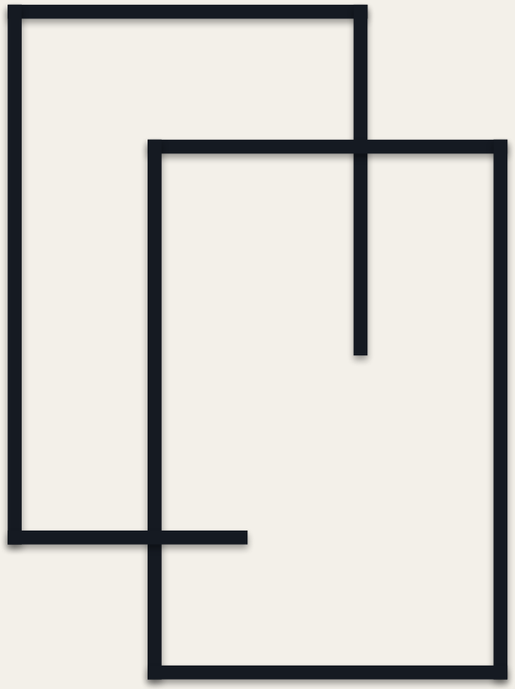

Ink and paper establish calm. Citron and cobalt create a controlled moment of surprise.

INK	PAPER	CITRON	COBALT	STONE
#151A22	#F3F0E9	#DCFF5F	#2948FF	#A6AAA6

An open frame.
A shared passage.

An original abstract identity device, not a drawing of the venue.

A room, a threshold and a horizon.

Two structures in one coherent system.

Simple enough for a label; strong enough for a facade-scale concept.

Final name/mark clearance and production proofs remain required.

A clear invitation.

A concept application with honest proposed status, not a public event announcement.

Oversized short language.

A disciplined original graphic.

Practical information remains readable.

Artwork is credited evidence, never decorative stock.

One system. Many voices.

The art leads; the system supplies coherence.

PRECISE

Editorial clarity, accurate information and serious service.

NOCTURNAL

Artist-led light/sound for specific approved programs.

MATERIAL

Hands, making and paid local authorship.

Make the experience worthy of the art.

Review the direction with artists, buyers, residents and disabled visitors; refine through funded design work.

- Keep authorship, rights and public welcome intact.
- Choose achievable exceptional work over borrowed spectacle.
- Use the brand book and production briefs as the working system.
